Anomaly marginalia

1 negative_money · critical 1 cost_money_exceeds_balance · warning 1 single_week_spike · warning 1 hunger_ignored_too_long · warning

1 #1 · negative_money · run 1, w0, critical — 138 occurrence(s) in the private run set. Replay evidence withheld.

2 #2 · cost_money_exceeds_balance · run 2, w0, warning — 97 occurrence(s) in the private run set. Replay evidence withheld.

3 #3 · single_week_spike · run 3, w0, warning — 49 occurrence(s) in the private run set. Replay evidence withheld.

4 #4 · hunger_ignored_too_long · run 4, w0, warning — 14 occurrence(s) in the private run set. Replay evidence withheld.

Public Review Summary

This public report is derived from a real test cell, but raw traces, full event text, and complete rule graphs are not included.

- Runs represented: 20
- Top public outcome: Outcome A - academic risk
- Sanitized anomaly groups: 4
- Ending rows shown: 3

Use the private report bundle for replay-level debugging. This static site is meant for portfolio and stakeholder review.
